Ms. Brown:

Following is the Bimonthly Progress Report required by the 3008(h) Order for RFI activities completed at the Philip Environmental Inc. (dba Burlington Environmental Inc.) Pier 91 Facility for the months of September and October 1995.

Description of Work Completed

- Water and product levels were measured in wells once each month.
- Received and validated second quarter 1995 groundwater monitoring data (enclosed).
- Completed fourth quarter 1995 groundwater sampling in October.
- Oil removed from skimmer in well CP-109 as needed.
- Wells CP-105A and CP-105B were abandoned due to building construction by PANOCO and will be replaced by late November. These are upgradient wells.

Summary of All Findings

- No significant findings occurred during this period.

Projected Work for Next Reporting Period

- Water and product levels will be measured monthly (pending request to modify schedule).
- Receive and validate third and fourth quarter 1995 groundwater monitoring data.
- Install the oil skimmer in another LNAPL well.
- Resolve the request to modify the frequency of groundwater quality sampling and type of analytes sampled, and to reduce the frequency of water level elevation measurements by first quarter 1996 sampling event.
